Good morning Chris,  
We have exhausted 4t's funds (\$42K) and are now switching over to 6t (approximately \$100K).

Understood. We will utilise 4t's \$40K first, and if XRP price is still below \$0.006, we will engage 6t.

Good morning Chris,  
6t was stopped @ 1800 PST Saturday per your instructions.

We are launching 4t in buying mode (0230am PST Sunday), but there is only \$40K available, and this amount will probably have minimal impact. (6t has approximately \$100k available, FYI.)

Please advise.

Hi Chris,

Bot 6t (Ripple-works) is running at a rate of \$25K/week. We would  
recommend pausing 6t before reversing 4t, otherwise  
they will likely cancel each other out. Please advise.
